ANONCREATIVE.COM
a division of anonprinting.com

are you a graphic designer or trade customer
for trade prices & large runs visit our sister company

Our Xerox A3 digital press is capable of producing flyers, business cards, stationery, posters, forms, leaflets and much more. Its fast, consistent and produces stunning results. And best of all it will produce short runs at cost effective rates minimising wastage of literature that becomes out dated.

full colour digital print

Our class leading Roland Versa-camm will produce awesome vivid graphics onto a wide range of media from poster paper to self adhesive vinyl. It uses eco-solvent inks for indoor & outdoor use and has cutting technology for producing decals etc making it perfect for signage or even vehicle graphics.

Letterheads & Comp Slips printed on a 120gsm smooth stock white.

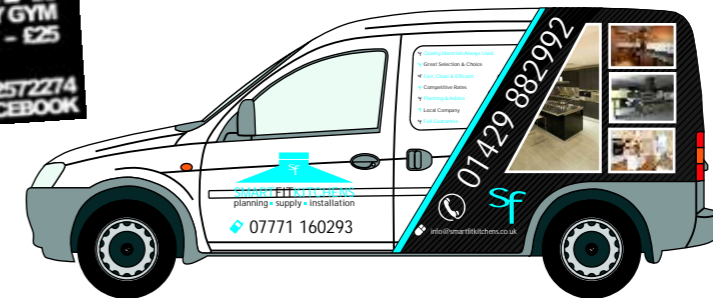

New service
For an additional £10 we will insert your letter content into the artwork and print it while doing the heading so you don't have to re-print the letterheads with your marketing info saving you both **TIME** and **MONEY!**

You're in good hands

All of our graphics for vehicles & signs are produced in house on our large format print & cut system. We then use approved and experienced local fitting teams who are able to fit the graphics at your premises or ours. This is particularly useful for vehicle graphics as a lot of signage firms insist in the customer leaving the van at the sign shop often causing disruption to the customers work schedule.

Vehicle Graphics

sizes & prices are guides

car	£120.00
small van (berlingo)	£140.00
med van (combo)	£160.00
large van (transit)	£190.00
large van (sprinter)	£250.00

Please note
Please note the image used here is a half wrap which is does not fit into the pricing structure above.

Deluxe Business Cards
